## HOW TO MEASURE HEIGHT

### 1 - CHEST:

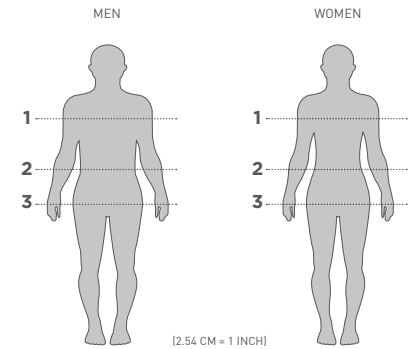

Measure around the fullest part of the bust, keeping the tape parallel to the floor.

### 2 - WAIST:

Measure around the narrowest point, keeping the tape parallel to the floor.

### 3 - HIP:

Stand with feet together and measure around the fullest point of the hip, keeping the tape parallel to the floor.

## CHOOSING THE RIGHT SIZE

In cases where your measurements are between two sizes, go with the smaller size for a tighter fit and the larger size for a looser fit.

### PANT FIT:

If your body measurements for hip and waist result in two different suggested sizes, you're better off going with the size from your hip measurements.

### TOP FIT:

If your body measurements for hip and waist result in two different suggested sizes, order the size from your chest measurement.

## YOUTH APPAREL SIZE CHART (AGES 7 TO 12 - SIZE 8 TO 20)

	S	M	L	XL
Age	9 - 10	11 - 12	13 - 14	15 - 16
Height	140cm	152cm	164cm	172cm

### HOW TO MEASURE HEIGHT

#### 1 - HEIGHT:

Without shoes, stand child feet slightly apart and their backs to the wall. Measure from the floor to the top of their head for height.

### CHOOSING THE RIGHT SIZE

Measurements refer to body size, not garment dimensions and are in inches, unless otherwise noted. When choosing sizes, height and weight are most important. We provide age as a rough guideline.
